## Chairman, Quality Control

Meet the most important person in our lives: a customer. As an investor-owned, business managed company, all Southern California Edison plans and all Edison people have one big objective: customer satisfaction.

We move ahead only as we serve and please our customers. And most of our customers are also owners of the electric utility industry.

It's a fact! If you have invested any of your savings in insurance or a mutual fund, if you're covered by a pension plan or belong to any organization with money to manage, you are probably an indirect owner. If you own shares of Edison stock, you're a direct owner.

No wonder Edison service is perpetually polished and perfected. The boss is all around us!
